

ORAL ROUND SCORESHEET

Oral Round (Circle one): **#1** **#2** **#3** Room Number/Location: _____

The timer keeps track of the round's official score on this sheet. Typically, the reader also keeps an unofficial score directly on the oral round question packet, marking A, B, or C next to each question to indicate which team answered correctly. If no correct response is given, the reader would simply mark the question with an "X". This system provides an important cross-reference check should there be a question about the official score. Often the reader and the timer will "check" each other to insure that a correct score is submitted to the meet coordinator.
